

everesting
AUSTRIA-VILLACH
RACE BOOKLET 2026

WELCOME

We are thrilled to bring Everesting to Villach for the very first time. We are delivering a spectacular event that breathes new life into the region at the start of the season. The Villacher Alpenstraße is the perfect stage – and we are certain that everyone who comes to ride it will leave with lasting memories, not only of the climb, but of everything this remarkable region has to offer.

GEORG FINDENIG
ORGANISATION AUSTRIA

This is the moment you have been waiting for: race day has arrived. We know you have worked hard to get yourself to the start line. So have we. On behalf of our team, our partners, our host city and all our incredible volunteers I wish you all the best and the most memorable day possible. Embrace the experience. We'll see you at the finish line where the celebration of your accomplishment begins.

ANDY VAN BERGEN
FOUNDER EVERESTING

Our Vision is to inspire a global community of aspiring adventurers to push beyond their limits, embrace challenge, and redefine the limits of what is possible in endurance climbing.

VINCENZO NIBALI
3 GRAND TOUR WINNER
EVERESTING AMBASSADOR

RIDE THE **DOBRATSCH**, STRONG AND BOLD, EVERY PEDAL STROKE PURE GOLD

Take on the Everesting challenge in the heart of the Austrian Alps. a legendary climb, a stunning location, and an unforgettable community experience.

- **MULTIPLE FORMATS**
Choose your challenge: Eight, Quarter, Half, or Full Everesting. Different formats for every climber.
- **SOLO OR IN TEAMS**
Take on the challenge alone or ride as a team of 2, 4 or 8 to complete a Full Everesting, riding together.

FORMATS

SOLO & TEAM

"t-02" TEAM of 2 (half Elevation gain)
4424 m
each athlete must climb 4 times

"t-04" TEAM of 4 (quarter Elevation gain)
2212 m
each athlete must climb 2 times

"08" TEAM of 8 (one eighth Elevation gain)
1106 m
each athlete must climb 1 time

Regulation procedure for TEAMS are:

Riders always climb in pairs.

The first two riders start the ascent.

When they reach the top, the next two riders begin climbing while the first pair descends.

This rotation continues until the last two riders complete the final climb for the team.

Depending on the chosen category, each rider may climb once or multiple times until the full Everesting elevation is reached.

The entire process is designed to be seamless.

FULL "SOLO" EVERESTING (full Elevation gain)
8848 m

"02" EVERESTING (half Elevation gain)
4424 m

"04" EVERESTING (quarter Elevation gain)
2212 m

"08" EVERESTING (one eighth Elevation gain)
1106 m

Regulation procedure for SOLO:

The SOLO riders starts to do the climb, as soon they reach the top of the climb they will start the descent. As soon they reach the start of the climb / turn around they will start the climb again. They will of course have time to stop for nutrition or change of close etc, but it has to be a seamless activity, and the riders are not allowed to leave the racecourse.

START PROCEDURE:

SOLO 01 and 02 are starting together.
SOLO 04 and SOLO 08 starting together.
The start between the sections will be 20 seconds)

Depending on the individual climb's elevation gain each SOLO rider will climb either one or multiply times until the complete elevation gain of the individual EVERESTING division is achieved. This will be a seamless process activity.

* the organizer keeps the right to change the formats / participation and fees due to the setup of the climb and destination

ATHLETE CHECKLIST

01 REGISTRATION

Friday, May 29, 2026 from 09:00 – 22:00
The registration is located in the Event Area in Villach Alpen Arena

For registration, please bring along:

- Valid photo identification
- Your license*
- Waiver will be signed at the venue
- Bring your ticket/booking confirmation with you. (can also be shown on your cell phone)

Participants must pick up their own race kit, as the waiver requires a signature on-site.

Your starter package includes:

- 1 start number bike (front),
- 1 start number for bike jersey (back),
- 1 Special Needs bag

Additional Information: your timing chip is in your bike tag.

(your front number on the handle bar)

- 1 wristband

The athlete's wristband grants access to the start area. Please check your starter package carefully. If any documents are missing or incorrect, notify the staff at registration immediately.

- **medical certificate is no longer mandatory!**

- **Following a recent change, a licence is no longer required!**

02 RACE BRIEFING

Friday 29th May, 19:00 – 20:00

03 WELCOME

The welcome takes place on Friday, May 29th from 18:00 to 21:00 in the Festival Area.

04 BIKE CHECK IN

- Bike check-in (bike, helmet, shoes) 15:00 – 22:00
- check-in will be on Friday, May 29th in the Villacher Alpen Arena next to the festival area and near the START for both Professionals and Agegroup athletes

BIKE PARK

Opens again on Saturday morning 03:30 – 09:00

05 BIB NUMBER CHECK

The bib numbers must be readable and mustn't be changed in any way. During the bike course, the bib number needs to be worn on your back. We suggest for safety reasons to write your name, blood type, every sort of allergies or drug intolerances as well as the phone number of your emergency contact on the back of your bib number (Jersey number)

06 RACE-DAY MORNING

The Pre-start area will be opened for athletes between 03:30 and 08:45

- Check your bike again. We will have technicians available in the transition area.
- You can put things into the special need bags on race morning.
- Please put all clothes, which you are wearing before the start or need after the race into the transparent streetwear bag and deposit at the prestart Area entrance.
- Do not forget to mount properly your race number on the bike in the front. This is including your timing chip. We can't measure your time without the timing chip, so "no timing chip - no time".
- Do not forget to cross the registration mat

at the entrance to the pre –start area. If you jump this procedure you will not be registered and therefore you will be disqualified. There will be a rolling start, which means that every five seconds, seven athletes start their journey. If you drop out of the race, you have to inform a race official about your drop out. Toilets will be located in the pre –start area and near by the festival area.

07 TOILETS

Please use the marked restrooms before the start. During the race there are toilets in the transition area, at the aid stations and along the course.

08 REGISTRATION FOR THE START

At the entrance to the pre - start area the athletes get registered via chip on the bike tag. If you jump this pre- start area you won't be registered and therefore you get disqualified.

09 POST RACE

The check-out has to be done on race day until 24:00 or on Sunday from 08:00 till 12:00 noon. Please assure that you pick up your equipment.

The organization of EVERESTING does not take the responsibility for lost or forgotten things. All remaining items will be taken to the awards banquet on Sunday. For any lost and found questions, please email to the Organisation.

10 OTHER KEY ISSUES

On the bike course the downhill / decent will be NUTRALIZED meaning there will be NO racing down the course.

- MP3-Players, i-Pods, mobile phones, Go Pros and other electronic devices are forbidden during the whole race.
- To get accompanied from persons not participating in the race is not allowed and you will be disqualified retroactively if you do so (applies also for the finish!).
- The volunteers are out there just for you. For medical or technical issues you can address yourself to them (they are in permanent contact with the race officials).

11 INFO POINT

The info point is located next to the Registration in the EVERESTING Festival. The info team will make every effort to give you the information you require concerning race e.g

12 RESULTS

Results will be available online on www.everesting.com/austria.

13 FINISHER T-SHIRTS, MEDALS, CERTIFICATES

Finisher T-Shirts will be given out in the athletes garden.

- You will receive your finisher medal right after you have crossed the finish line.
- You can get your medal engraved after the race in the athletes garden.
- You can get your certificate some days after the race online under "results". Certificates will be sent as a PDF-file via email some days after the race as well.

14 FINISHER FOTO

The finisher pictures can be viewed after the race on www.sportograf.com under specification of your name or bib number. Pictures, which have been ordered with the registration will be sent to you via email.

15 AWARDS BANQUET

The awards banquet included will take place on Sunday, May 31st at 10:00 noon depending on the weather conditions either on the Top of Dobratsch ; Rosstratten Restaurant or in the Atrio Shopping Center.

16 OFFICIAL EVERESTING VILLAGE

- Friday, May 29th, 2026, 10:00 – 21:00
- Saturday, May 30th, 2026, 03:30 – 23:00
- Sunday, May 30th, 2026, 08:00 – 10:00

More Questions? Please contact athleteservices@everesting.com

CUT OFF TIMES

SOLO & TEAMS

The Everesting Austria, in Villach – Dobratsch is a true Everesting event — with rules and timing that make the challenge authentic This cut-off is part of what makes it special: it pushes every rider to go beyond their limits and strive for their best performance.

TEAM EVERESTER AND ANY OTHER EVERESTING DIVISION ATHLETE

THE CUTOFF TIME FOR THE TEAM EVERESTING ATHLETES IS 9H AND IS CALCULATED AS THE FOLLOWING:

GENERAL (16km climbing for each TEAM member)

Climbing time estimated 2h 40 min average = (most likely the first couple of climbs are faster than the average estimation)

Decent time estimated 40 min average = (the decent time is very fair and calculated on a normal decent without racing! Racing downhill will lead to penalty and disqualification)

This will mean a total of 3h 10min average for ONE full loop (climb and neutralized decent).

The TEAM 02 starts together, the TEAMS (04 and 08) of 4 and 8 riders set off as a pair, 5 minutes apart. (i.e. the first 2 riders of the teams 04 and 08 starting and 5 minutes later the next 2 riders of this teams are starting the climb and so forth)

Neutralized decent: means it will be an organized normal decent with moderate speed and not cutting corners (always and at any time decanting athletes need to stay on the right side of the middle lane) this will be controlled by Race Marshals and if needed athletes will be WARNED once with a YELLOW CARD shown and registered. In case of a second warning by the Race Marshal, the athlete will be DISQUALIFIED. Disqualification. means to stop the race immediately, handing over the PIP Number to the Race Marshal and not be able to continue the race.

CUTOFF execution:

The TEAM athletes will start at 09:00 in the morning with the first climb / first loop

The athletes which like to be within the cutoff time of 14h in total will need to start the last loop / loop 2 = last climb at 20:20 local time and have 2h40min of climbing time to finish the last loop and complete the EVERESTING within the CUTOFF time.

CUTOFF not achieved:

TEAM athletes which start the last climb in time at latest 20:20 and still do not finish in time at 23:00 on top, will be notified by the RACE director while still climbing and can decide to stop and return back or can continue to climb BUT under their own risk and completely under the traffic law and regulation (headlights, back light etc). These athletes will be recognized as DNF in the official Event ranking/ timing.

THE CUTOFF TIME FOR THE SOLO

EVERESTING ATHLETES IS 19H AND IS CALCULATED AS THE FOLLOWING:

GENERAL (8 loops of 16km climbing)

Climbing time estimated 1h 50 min average = 8 loops

(most likely the first couple of climbs are faster than the average estimation)

Decent time estimated 40 min average = 7 loops = 4h40 min (the decent time is very fair and calculated on a normal decent without racing!)

Racing downhill will lead to penalty and disqualification)

This will mean a total of 2h 30min average for ONE full loop (climb and neutralized decent).

Neutralized decent: means it will be a organized normal decent with moderate speed and not cutting corners (always and at any time decanting athletes need to stay on the right side of the middle lane) this will be controlled by Race Marshals and if needed athletes will be WARNED once with a YELLOW CARD shown and registered. In case of a second warning by the Race Marshal, the athlete will be DISQUALIFIED. Disqualification means to stop the race immediately, handing over the PIP Number to the Race Marshal and not be able to continue the race.

CUTOFF execution:

The SOLO athletes will start at 04:00 in the morning with the first climb / first loop

The athletes which like to be within the cutoff time of 19h in total will need to start the last loop / loop 8 = last climb at 21:00 local time and have 2h of climbing time to finish the last loop and complete the EVERESTING within the CUTOFF time.

These last loop athletes which will finish in time on top of Dobratsch do not have to do the decent anymore, they will be transferred back by a TRANSFER -VAN from the ORGA (due to the daylight situation) .

CUTOFF not achieved:

SOLO athletes which start the last climb in time at latest 21:00 and still do not finish in time at 23:00 on top of Dobratsch will be notified by the RACE director while still climbing and can decide to stop and be picked up by the ORGA VAN or can continue to climb BUT under their own risk and completely under the traffic law and regulation (headlights, back light etc.) These athletes will be recognized as DNF in the official Event ranking/ timing.

RECOMMENDED MATERIAL

To ensure rider safety during long-duration climbing and descending on the Dobratsch course, all participants must carry the following mandatory equipment at all times.

Mandatory equipment must be carried in a dedicated safety bag (or equivalent storage) and must be available for use at any moment. Items do not need to be worn at all times but must be accessible if conditions require.

Mandatory Equipment

- Certified cycling helmet (must be worn at all times)
- Front white light
- Rear red light
- Windproof or waterproof jacket
- Thermal layer (long sleeve jersey / gilet / arm warmers)
- Gloves (weather appropriate)
- Mobile phone (fully charged)
- ID document
- Minimum hydration capacity (at least one bottle)
- Mandatory Night Equipment

When riding in low-light or night conditions, the following equipment is mandatory:

- Front white light (must be switched on)
- Rear red light (must be switched on)
- Reflective elements (clothing or bike)
- Lights must remain active during all night riding, even on closed roads, to ensure rider visibility and safety.

Bike Requirements

- Bicycle in safe working condition
- Two fully functional brakes
- Tires in good condition suitable for long descents
- Bar end plugs installed
- The organization reserves the right to perform visual bike safety checks before the start of the event.

Mechanical & Food Support

Mechanical assistance and food stations will be available along the course. Participants remain responsible for managing their own equipment and nutrition strategy. Additional details regarding support stations and services will be communicated prior to the event.

Notes

Equipment checks may be performed before or during the event. Weather conditions on the Dobratsch can change rapidly. Temperatures at the top may be significantly lower than at the start.

RECOMMENDED GEAR RATIO & TYRES

The Dobratsch climb is long and steady, and will be repeated multiple times. Riders are strongly advised to use a setup optimized for endurance rather than aggressive race gearing. Maintaining cadence and minimizing muscular fatigue will be key over the duration of the event.

Recommended gearing

- A lowest gear of around 1:1 or easier is strongly recommended
- Typical suitable setups include:
 - 50/34 with 11–34
 - 48/32 with 11–34
 - 46/30 with 11–34 or 11–36
- Harder setups may significantly increase fatigue over repeated ascents
- Riders should prioritize cadence and sustainable effort

Recommended tyres

- 28 mm recommended as standard choice
- 30 mm recommended where frame clearance allows
- Durable road tyres with good grip preferred over ultra-light race tyres
- Wider tyres improve comfort and control on repeated descents
- Tyre pressure should be adapted to rider weight and conditions

Recommended Equipment

The following equipment is not mandatory but strongly recommended for comfort, reliability and safety on a long mountain course with repeated climbing and descending.

Bike & setup

- Bike computer or GPS device
- Heart rate monitor or power meter (optional)
- Extra bottle cage if possible
- Compact saddle bag

Clothing

- Gilet or packable thermal layer
- Arm warmers or leg warmers
- Lightweight rain jacket
- Extra gloves for descents
- Base layer for temperature changes

Safety & comfort

- Clear or low-light lenses
- Sunscreen
- Chamois cream
- Power bank
- Spare lights (optional)

Mechanical & reliability

- Small repair kit
- Spare tube or tubeless repair (optional)
- Recently checked braking system
- Brake pads in good condition for repeated descents

And most importantly

Bring patience.
Bring consistency.
Bring respect for the climb.

The most important thing you can carry is the belief that you belong here, one ascent at a time.

ATHLETE STARTER BAG

VINCENZO NIBALI
3 GRAND TOUR WINNER
EVERESTING AMBASSADOR

We're thrilled to announce that our global EVERESTING EVENT ambassador, VINCENZO NIBALI, will award his signature cycling jersey to every participant and will also honor the winners and fastest climbers on Dobratsch with his jersey.

ATHLETE FINISHER KIT

FASTEST CLIMBER

The 2 athletes (female & male) with the fastest lap climbing time (female and male) will receive this „Shark“ Jersey.

(FLCT = the time of one climb no matter in what period or division but it must be within the race and the athlete needs to finish its format entered)

FASTEST FINISHER

Every winner of the Professional and Age Group division will receive a „Shark“ Jersey (Male, Female and Teams)

Q36.5 United by our Italian heritage and our unwavering dedication to the sport, we have teamed up with one of cycling's greatest champions and our new brand ambassador, Vincenzo Nibali (the Shark), to take cycling apparel to a whole new level.

WELCOME TO AUSTRIA-VILLACH

YOUR HOST CITY

Carinthia, Austria's southernmost province, is one of Central Europe's most breathtaking alpine destinations. Bordered by Slovenia and Italy, the region combines dramatic mountain scenery, crystal-clear lakes with a warm, almost Mediterranean climate – making it a year-round playground for outdoor enthusiasts and culture lovers alike. Villach, Carinthia's vibrant second city with 65,000 inhabitants, sits at the confluence of the Drau river and serves as the natural gateway to the Southern Alps. With its charming pedestrian old town, thriving restaurant scene and a calendar packed with festivals and cultural events, Villach is a city that rewards both the athlete and the curious traveller.

YOUR HOST CITY

TOP THINGS TO DO

Villach is a lively, modern city with a charming historic centre and a thriving culinary scene. The region around Villach is defined by lakes, whose crystal-clear waters draw swimmers, sailors and sun-seekers from across Europe every summer. The surrounding mountains offer endless hiking trails, from gentle valley walks to demanding alpine routes, with sweeping views across the alps in every direction.

The Dobratsch, known locally as the Villacher Alpe, rises to 2,166 metres directly above the city and is the region's most iconic landmark. Its nature park is home to rare flora, breathtaking viewpoints and well-loved hiking paths that have made it a favourite destination for generations of locals and visitors alike.

On 30 May 2026, however, the Villacher Alpenstraße – one of the most scenic and demanding roads in the Austrian Alps – belongs entirely to you.

PUMPTRACK DROBOLLACH

The Pumptrack in Drobollach sits right on the shores of the Faaker See – and it's exactly what your body needs after a day on the Dobratsch. No pedalling, pure flow. Let gravity do the work for once, feel the rhythm of every roller and berm, and remind yourself why you fell in love with two wheels in the first place. Recovery never felt this good.

www.lake.bike

EXPLORE THE REGION

One finish line. A whole region to discover. Villach, Faaker See and Ossiacher See form a landscape where turquoise water, alpine meadows and centuries-old villages sit within minutes of each other. Swim in the warmest lakes in the Alps. Hike through the forests of the Dobratsch Nature Park. Taste Carinthian cuisine at a lakeside Buschenschank, or simply sit somewhere with a view and let the mountains do their thing.

www.visitvillach.info

LIVE WHERE OTHERS GO ON VACATION

Villach sits at the crossroads of Austria, Italy and Slovenia – where a historic old town meets three alpine lakes and a natural landscape most cities can only dream of. Cosmopolitan yet unhurried, vibrant yet relaxed. Warm summers. Clear water. Mountains on the doorstep. Villach rewards everyone who shows up – whether for a weekend or a lifetime.

9 EVERESTS. 1 CLIMB. 7 DAYS.

JACK THOMSON · @JACKULTRACYCIST · WORLD FIRST RECORD ATTEMPT

9+
EVERESTS
IN 7 DAYS

79,632m
ELEVATION GAIN

72
ASCENTS OF THE
DOBRATSCH CLIMB

8
CURRENT RECORD
TO BEAT (2018)

THE ATHLETE

Jack Thompson is a professional ultra-endurance cyclist and 9x World Record holder.

Australian-born, Spain-based. He takes on projects that sit at the edge of what is considered possible — and delivers on them.

Trusted by global performance brands, documented by professional film teams, and followed by a global audience built on honest storytelling and extreme execution.

- **9 x World Record Holder**
- **Most Everests Completed in a Year**
- **Professional Ultra Athlete**
- **Global Brand Partners**
- **International Keynote Speaker**

THE PROJECT

An Everest in cycling is considered the hardest endurance challenge in the sport — 8,848m of elevation gain on a single climb.

The world record for the most completed in a single week is 8, set in 2018, on a single climb.

In May 2026, Jack will set out to break that record — completing 9 Everests on the 'Dobratsch' climb in southern Austria in 7 consecutive days, finishing as part of the official Everesting event on Dobratsch on 30th May. One mountain. Ridden repeatedly until the record is broken.

WHY IT MATTERS

THE DIFFICULTY

One Everest takes 10–18 hours of sustained effort. Completing nine on the same climb is both physical and mental torture — every repeat is a choice to go back up knowing exactly what's coming. The mountain doesn't change. The mind has to.

THE OPPORTUNITY

A world record attempt of this scale, unfolding across seven days and one iconic mountains, is a rare piece of live storytelling. The kind that doesn't need manufacturing — it just needs a camera

THE REGION

Dobratsch is one of Southern Austria's most recognised peaks, sitting at the heart of a region with strong local media and community reach. A world record attempt here is a natural spectacle — one that draws a crowd, generates coverage, and puts the destination in front of a global audience.

„Nine Everests. One climb. Seven days. The record exists to be broken“
